

choice

```
graph TD; A[choice] --> B["[b]?"]; B --> C["f =?"]
```

A flowchart with three nodes. The top node is a light blue rounded rectangle containing the text "choice". An arrow points down from this node to a gray rectangle containing the text "[b]?". From this gray node, an arrow points down and to the left to a light blue rounded rectangle containing the text "f =?".

[b]?

f =?
